1. In the applicant's response, the list of claims indicates that claims 56, 58-60 and 83 are withdrawn. However, claims 56 and 58-60 were cancelled in the response of 2-29-03, and claim 83 was cancelled in the latest response. In the next response, these errors should be corrected in the list of claims.

2. Claims 91 and 97 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Claim 91 reads on chain extenders not included in the preceding claim, and claim 97 reads on other polyols, whereas claim 87 is limited to polyester polyols. It also doesn't appear that the other polyols have support in the disclosure.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 87, 89, 94 and 97-99 are rejected under 35 U.S.C. 102(b) as being anticipated by Quay.

See Paper no. 7, paragraph 12.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1711

6. Claims 87-100 are rejected under 35 U.S.C. 103(a) as being unpatentable over de Groot (New Biomedical...) in view of Cohn, de Groot (Use of Porous...) and Gogolewski.

See Paper No. 10, paragraphs 9-13.

7. Claim 101 has been objected to for depending on rejected claims.
